RESEARCH PROFILE

Applied economist working on labour markets, innovation, the green transition, and migration. My doctoral research examines how workers value the non-wage attributes of their jobs, from the organisation of work to their environmental content; whether firms' green innovation delivers measurable environmental improvement; and how geographical and cultural origin shapes inventor sorting across firms. I combine expertise in microeconometrics (causal inference, difference-in-differences, panel data) and experimental methods (discrete choice experiments, survey design) with complementary training in qualitative fieldwork (ethnography and interviews) from my background in the political and social sciences.

EDUCATION

PhD in Economics *Defence: Feb 2027 (thesis submitted in Oct 2026)*
University of Ferrara & University of Parma, Italy
- **Thesis:** Essays on Workers, Firms and Inventors in the Green and Technological Transitions
- **Supervisors:** Prof. Ugo Rizzo, Prof. Andrea Lasagni

Master's Degree in Political and Social Science *Dec 2021*
University of Bologna, Italy
- **Grade:** 110/110
- **Thesis:** *Locally Displaced: The Experience of Immigrant Gig Workers in the Digital Food Delivery Sector*
- **Methodology:** Conducted extensive ethnographic fieldwork in the digital food delivery sector, performing overt participant observation and 22 unstructured interviews with migrant gig workers.
- **Investigated** the subordinate integration of migrants into the Italian labour market, analysing their practical attitudes towards piecework, self-exploitation, and algorithmic management within platform capitalism.
- **Critically evaluated** the impact of collective bargaining agreements on migrant workers, highlighting the disconnect between traditional trade union strategies and the distinct economic vulnerabilities of the migrant workforce.

Bachelor's Degree in Political and Social Science *Dec 2017*
University of Bologna, Italy
- **Thesis:** *Transatlantic Relations and the Origins of the European Integration Process*

RESEARCH EXPERIENCE

Visiting PhD Researcher | Imperial College London, UK *Oct 2025 – Mar 2026*
Host: Prof. Pelin Demirel (Imperial College)
- **Investigating** the impact of green technological (patents) and non-technological (trademarks) innovations on the environmental performance of US publicly listed companies.
- **Constructed** a complex, longitudinal firm-level dataset by integrating large-scale data from USPTO/PatentsView, Compustat, and Refinitiv ESG indicators, using **Python** (for data merging/fuzzy matching) and **Stata** (for advanced econometric panel data analysis).
- **Co-authored** a working paper with Prof. P. Demirel (Imperial College), Prof. G. Ozturk Danisman (Istanbul Bilgi Univ.), and Prof. U. Rizzo (Univ. of Ferrara), currently in preparation for journal submission.

Visiting PhD Researcher | University of Bordeaux, France *Mar 2025 – Jul 2025*
Host: Prof. Valerio Sterzi (University of Bordeaux)

- **Designed** a study to assess whether individual inventive productivity (patent count and quality), firm innovative performance, and geographical and cultural distance from the region of origin affect the likelihood of inventors holding a managerial or professional role.
- **Building** an empirical strategy based on econometric matching, applied to a novel employer–employee dataset linking patent records to personnel data, to compare the career trajectories of native-born and non-native inventors while conditioning on demographics, firm-level characteristics, and individual patent-based productivity.
- **Examining** whether origin-based barriers distort the sorting of inventors across firms and, if so, how this affects regional innovation and productivity.
- **Co-authoring** a paper with Prof. V. Sterzi (Univ. of Bordeaux) and Prof. U. Rizzo (Univ. of Ferrara).

Pre-Doctoral Research Assistant | University of Parma, Italy *Nov 2022 – Oct 2023*
Project: MIGREMPRISE (Migrant entrepreneurship, employment and innovation in strategic Italian economic sectors: a lever of social pacification?)

- **Designed and conducted** extensive qualitative field research, including in-depth, semi-structured interviews with migrant entrepreneurs to investigate local development, socio-economic integration, and technological and managerial innovations within migrant-led firms.
- **Performed** content and discourse analysis of qualitative data.
- **Co-authored** academic research papers and **disseminated** key findings through presentations at international conferences.

TEACHING EXPERIENCE

Teaching Assistant | University of Parma, Italy *Feb 2023 – May 2023*
Partnership with Boston College

- **Designed and delivered** English-medium lectures on the socio-economics of migrant entrepreneurship for an international cohort of undergraduate exchange students.
- **Mentored and supervised** them through dedicated academic support, guiding their research design and sociological analysis.
- **Assessed** their final 3,000-word research papers, providing constructive, formative feedback to improve their academic writing and critical thinking skills.

PUBLICATIONS & WORKING PAPERS

Publications

- **Marini, A.**, Baglioni, S., Arrighetti, A., & Lasagni, A. (2026). *From Employees to Entrepreneurs: Unveiling the Antecedents of Migrants' Spinouts in the Mainstream Market.* **The International Journal of Entrepreneurship and Innovation.** DOI: 10.1177/14657503261452435

Working Papers

- **Marini, A.**, Landini, F., & Rizzo, U. (2026). *The Value of Green Job Attributes.* **In submission to *Labour Economics***. Working paper available on SSRN: DOI: 10.2139/ssrn.7394358
- **Marini, A.**, Demirel, P., Ozturk Danisman, G., & Rizzo, U. (In preparation). *Substance or Signal? Green Patents, Green Trademarks, and Firms' Environmental Performance.*

Work in Progress

- **Marini, A.**, Sterzi, V., & Rizzo, U. *Origin-Based Barriers and the Sorting of Inventors.*

Reports

- Lasagni, A. & **Marini, A.** (2024). *Imprenditori immigrati e filiere produttive: un'indagine sul campo in Emilia-Romagna* [Immigrant Entrepreneurs and Supply Chains: A Field Survey in Emilia-Romagna]. Rapporto annuale sull'economia dell'immigrazione – Fondazione Leone Moressa.

AWARDS

- **Best Paper Award** (€1,000) for *The Value of Green Job Attributes*, PhD Discussion Sessions, *Behavioural Economics for Sustainability Transitions – 2nd Summer School*, UnitelmaSapienza University, Rome, Italy, September 2026.

CONFERENCES & PRESENTATIONS

- **Presenter**, PhD Discussion Sessions, *Behavioural Economics for Sustainability Transitions – 2nd Summer School*, UnitelmaSapienza University, Rome, Italy, September 2026.
  - **Paper presented:** *The Value of Green Job Attributes* (Best Paper Award).
- **Presenter**, *Behavioural Environmental Economics and Policy Workshop*, King's College London, UK, September 2026.
  - **Paper presented:** *The Value of Green Job Attributes.*
- **Presenter**, *World Congress of Environmental and Resource Economists*, NOVA School of Business and Economics, Lisbon, Portugal, July 2026.
  - **Paper presented:** *The Value of Green Job Attributes.*
- **Presenter**, *Paper Development Series: Economics of New Technologies and Global Change*, Webinar, November 2025.
  - **Paper presented:** *The Value of Green Job Attributes.*
- **Presenter**, *REGIS – Bordeaux Summer School*, Bordeaux School of Economics, France, June 2025.
  - **Paper presented:** *Geographies of Disadvantage: Disentangling Regional Discrimination in Career Progression.*
- **Presenter**, *Doctoral Seminar*, Bordeaux School of Economics, France, May 2025.
  - **Paper presented:** *The Value of Green Job Attributes.*
- **Presenter**, *The Organizing Migration and Integration in Contemporary Societies Conference (OMICS)*, University of Gothenburg, Sweden, November 2023.
  - **Paper presented:** *Beyond Break-in Break-out Pattern? Migrant Enterprises and the Role of Native Networks in Three Strategic Italian Economic Sectors.*
- **Presenter**, *Migrant Entrepreneurship. State of the art and perspectives*, Sorbonne Business School, Paris, France, June 2023.
  - **Paper presented:** *Beyond Break-in Break-out Pattern? Migrant Enterprises and the Role of Native Networks in Three Strategic Italian Economic Sectors.*

ADDITIONAL TRAINING

- **2026** | *Summer School in Behavioural Economics for Sustainability Transitions*, UnitelmaSapienza University, Rome, Italy.
- **2025** | *Summer School in Advanced Economics – Modern Causal Inference*, University of Ioannina, Spetses, Greece. Prof. Jeffrey Wooldridge & Prof. Pedro Sant'Anna.

- **2025** | *Summer School: Reading Group in Innovation Studies*, Bordeaux School of Economics, Bordeaux, France.
- **2025** | *BSE Executive Course – Data Science Economics*, Barcelona School of Economics, Barcelona, Spain.
- **2024** | *Summer School – Introductory Econometrics*, Italian Econometric Association, Bertinoro, Italy.
- **2024** | *Summer School – Panel Data*, Italian Econometric Association, Bertinoro, Italy.
- **2024** | *SEEDS Summer School: Patent Data Analysis for Economics*, University of Ferrara, Ferrara, Italy.

TECHNICAL SKILLS & LANGUAGES

- **Data Analysis & Econometrics:** Advanced proficiency in **Stata** (panel data, causal inference, discrete choice modelling); **Python** for data merging and fuzzy matching.
- **Survey & Experimental Design:** Expertise in designing and implementing Discrete Choice Experiments (DCE) and complex survey workflows using **Qualtrics**.
- **Qualitative Research:** Expertise in ethnographic methods, overt participant observation, and semi-structured interviews.
- **Other Software:** LaTeX (Overleaf), Excel, Microsoft Office.
- **Languages:** Italian (Native), English (Fluent / Academic Proficiency).

REFEREES

Prof. Ugo Rizzo
Professor of Economics
